

It is amazing to consider what God has done in us and through us this past year and the way God has expanded both our faith and our imaginations! Through God's grace, we deepened in faith and had meaningful inter-generational experiences both in-person and online.
This is an enormous feat to be celebrated!

We worshipped on a new outdoor turf, inside a Sanctuary, on Udall Street, from our cars, through computer screens, and by driving through.

We interacted with donkeys, got our cars "ashed," and went on a socially-distanced Holy Land tour.

We had more than 2,000 engagements where people deepened in faith through bible studies, prayer groups, camps, retreats, pilgrimages, and book discussions both online and in-person.

We opened our campus, including a brand new Children's Worship Center, to provide programs for those under age 18 who were experiencing extreme social isolation due to school closures. This included two elementary-aged pods, a youth orchestra, an art and drama class, a faith and fitness class, in addition to our regular youth/children programming.

We re:imagined Church!

We hired a new Director of Online Ministry and a Digital Content Producer and switched from being *reactive* online to *proactive*, trusting God to lead us into the future.

As you prayerfully consider how you may join our exploration for this next year, we pray you are reminded of the BOUNDLESS nature of God.
We can't wait to be in awe with you of the beauty, wonder and grace that we experience together!

CHURCH WITH NO WALLS

Kristin Stephany has been a member of PLCPC for 48 years.

God is at work in my life big time! After spending 55 years in San Diego and most of that as a member of PLCPC, I had the opportunity to move to Florida. As scary as that sounds, and it was scary, knowing that I could continue to worship with my church family online has brought me tremendous comfort. I know this will sound funny, but I am grateful for the pandemic in that it caused us to pause, listen to God and re:imagine...everything. The online worship service has been such a blessing to come out of that crazy, re:imagined time. God really took down the walls of the physical church and showed us that it's the people who make up the church, regardless of where you are. We saw old friends that had moved away come back and we were able to invite family and friends to worship with us. I am so glad to be a part of the online services each week and am excited to see where our support, of time, token and treasure will take the online service and how it will help to grow the church without boundaries.

TOGETHER FOR THE FAMILY

Amidst all of the economic, social and medical chaos of the last two years, *Together for the Family (TFF)*, our ministry partner in Lebanon has thrived due to their willingness to dream and trust in God's faithfulness. Because of your generous donations, they have touched countless lives through their trauma ministry, training and education programs, medical clinics and more.

Sara, a 13 year-old Syrian refugee, found safety and healing through TFF. She had been sexually abused by her neighbor, but could not tell anyone due to the risk it would put on her family. She heard about TFF and was able to share her trauma with the staff team. She started attending the daily programs and met the Lord. She has continued her involvement with TFF and she is now a counselor helping other children facing the same trauma.

It would take 109,000 days to walk around the sun (300 years).

109,000

Even with all the ways that God has expanded us this year, we have so much more to learn about the infinite nature of God's grace!

Think about our physical Universe:

14,000

It would take 14,000 times the age of the universe to walk around the Milky Way. Remember, it's just ONE of about 1 million galaxies in our super cluster of galaxies!

It would take 1,000 days to walk around the earth (8 hrs/day). Remember, it's just one of the 8 planets orbiting the sun.

1,000

Just as God expanded us last year, we at PLCPC desire to be more open in 2022 to the infinite nature of God's grace and where God might be leading. Your role is a necessary element for our exploration.

We need an abundance of time, talent and treasure to move into this great unknown.

This coming year, we hope to discover:

Growth

Growth of our online community—no longer are we bound geographically. We can now share the message of God's grace with the entire world and God has gifted us the right personnel to do so.

Expansion

Expansion of our Youth and Children's ministries—with recent transitions in our staff, we now have new people with new inspiring ideas leading these groups. After a year of social deprivation, the future generations are desperate to find a place of belonging and hope.

Help

More opportunities to help those in need—we hope to continue to be a connector of time, talent, and resources for those who are struggling both in our community and around the globe.
